

**Department of Environmental Science**  
**STAMFORD JOURNAL OF ENVIRONMENT AND**  
**HUMAN HABITAT (SJEHH)**

**Guidelines for Authors**

**Stamford Journal of Environment and Human Habitat (SJEHH)** is an annual peer reviewed multi-disciplinary publication of the Department of Environmental Science, Stamford University Bangladesh. **SJEHH** publishes research papers, case reports, research notes, short communications and review papers on various aspects of environmental science and technology in the broadest sense of the terms related to man-environment relationship. Submission of a paper/manuscript to SJEHH implies that it reports unpublished and original work not under consideration for publication elsewhere. The authors are responsible for the accuracy of the data and all matters contained in the papers including appropriate references. The editorial body of the journal will not be responsible for any opinion or contents or any sort of fraudulence contained in the articles. Submitted manuscripts are carefully studied and judged by reviewers whose names are not normally disclosed to authors. Upon acceptance, papers might be subjected to editorial amendment.

**Notes for author/s:**

1. In order to expedite publication, a copy of the manuscript, typed in A4 sized paper not exceeding 10 pages or 5,000 words, should be submitted electronically via e-mail attachment. In addition, three hard copies of the whole manuscript including tables and figures, and a soft copy of the same document in a CD must be submitted.
2. Manuscripts must be submitted only in English and should be written according to sound grammar and proper terminology and should be typed double spaced between lines in Times New Roman of 11 pt. font in the compatible MS-Word format with 1 inch margin at each side. More than one submission for a single manuscript can lose the chance of the manuscript's consideration. Manuscript must be accompanied by a covering letter signed by all authors. Normally, article written by more than three authors is discouraged. Article should contain full address of the corresponding author including e-mail, fax and telephone/cell phone numbers.
3. The text should include: Title, with author(s) name and address; an abstract (150 - 250 words) stating the purpose of study, basic procedures, main findings and principal conclusions, followed by 4 to 8 key words. Introduction; materials and methods; results and discussion; acknowledgement (if any) and list of references used then follow. Tables (in EXCEL format) and figures in limited numbers should incorporate captions placed above for tables and below for figures, and should be referred to in appropriate places of the text. Do not submit tables and graphs as photograph or scanned form.

Place explanatory matters as end notes. Limited number of photographs may be included and should be sent in jpg format separately. Please note that the Editorial Board of the Journal reserves the right to accept or reject any article at any stage, if necessary.

4. Soon after the review process the author(s) will be notified about the acceptance of paper, and since there is no practice of making reprints of individual papers, the author(s) will have to purchase eight (8) copies of journal at reduced price.

5. Authors are requested to keep in mind the followings in case of citing and listing of references:

*Text:* All citations in the text should refer to: 1. Single author: the author's name (without initials, unless there is ambiguity) and the year of publication; 2. Two authors: both authors' names and the year of publication; 3. Three or more authors: first author's name followed by "*et al.*" and the year of publication. Citations may be made directly (or parenthetically). Groups of references should be listed first alphabetically, then chronologically. Examples: "as demonstrated (Allan, 1996a, 1996b, 1999; Allan and Jones, 1995). Kramer et al., (2000) have recently shown ...".

*List:* References should be arranged first alphabetically and then further sorted chronologically if necessary. More than one reference from the same Author (s) in the same year must be identified by the letters "a", "b", "c", etc., placed after the year of publication.

6. References at the end of the article should be alphabetically arranged and the responsibility for the accuracy of bibliographic citations lies entirely with the author/s. A set of examples followed by the SJEHH for different source materials is noted below:

#### **Books:**

Davis, M. L. (2005). Introduction to Environmental Engineering, 3rd. Ed. New York: McGraw Hill Inc.

Mettam, G. R.; Adams, L. B. (1999). How to prepare an electronic version of your article, in: Jones, B. S., Smith, R. Z. (Eds.), Introduction to the electronic age. New York: E-Publishing Inc.

#### **Journal articles:**

Baumann, T.; Fruhstorfer, P.; Klein, T.; Niessner, R. (2006). Colloid and heavy metal transport at landfill sites in direct contact with ground water. *Water Resources*, 40 (14): 2776-2786.

Lye, D. (2002). Health risks associated with consumption of untreated water from household roof catchment system. *Journal of the American Water resources Association*, 38 (5): 1301-1306.

#### **Conference papers:**

Brown, J. (2005). Evaluating surveys of transparent governance. In UNDESA, 6th Global forum on reinventing government: towards participatory and transparent governance. Seoul, Republic of Korea 24-27 May. New York.

Still, G. T. and Thomas, T. H. (2003). Sizing and optimally locating guttering for rainwater harvesting. Proceedings of the 11<sup>th</sup> International Conference on Rainwater Catchment Systems. Mexico City, 25-29 August. Mexico.

**Dissertations:**

Trent, J.W. (1975). Experimental acute renal failure. Ph.D. Dissertation (unpublished). California: University of California.

**Online documents:** As a minimum, the full URL should be given. Any further information, if known (Author names, dates, reference to a source publication, etc.), should also be given.

Cartwright, J. (2007). Big stars have weather too. IOP Publishing Physics. Web. <http://physicsweb.org/articles/news/11/6/16/1>. Accessed 26 June 2007.

**Others:**

Please ensure that every reference cited in the text is also present in the reference list. Unpublished results and personal communications are not recommended in the reference list. "Unpublished results" or "Personal communication" citation of a reference as "in press" implies that the item has been accepted for publication.

Papers prepared from undergraduate project works are not considered for publication in this journal. Papers using data more than five years old are generally discouraged. Number of authors should ideally be limited to three persons.
